

TIP 6/12 – Mix it up

Highlight from the expert : If you are scared to do mistakes with the colour association, keep in mind the colour wheel. Contrasts colours stand out, whilst complimentary colours harmonizes to give a softer appearance.

- 1** – Colours, texture, they all can be mixed together in order to create the finish you desire.
- 2** – The **Lacquer Rouge GD817 Athena**, used in the center of the lips over the **Perfect Rouge PK249 Bloom**, creates a fabulous 3D plumping effect .
- 3** – To make any eye shadow more luminous, more shiny and brighter, use the **Shimmering Eye Cream Color WT901 Mist** as a base on your eyelid.
- 4** – To mix lipsticks shades together and get your dream color, use a spatula to collect the textures from the bullets and mix them up until you obtain what you are looking for.
- 5** – Colour is what you want it to be... Do it like Dick Page, the colour specialist!
